POSITHREAD

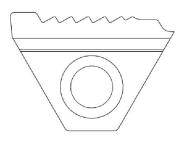

Special Solutions

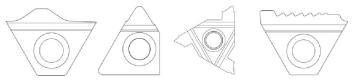

As companies seek to maximise production and streamline their productivity there is an increased market demand for Special Solutions. As business demands increase, it is essential to optimise manufacturing and decrease cycle times. Special tools can eliminate operations and drastically reduce cycle times.

The Posithread team are committed to help their customers meet this pressing demand. Our experienced design team, headed by Peter Redhead, are on hand to offer solutions to customer problems. Posithread special solutions are often the key to improving productivity and increasing product quality.

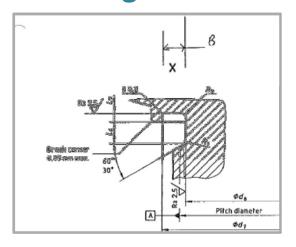

The Posithread Guarantee

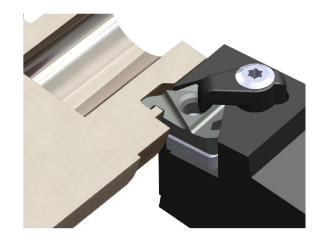

Our customers demand the highest level of service and with this in mind we guarantee delivery of our Special Solution within **3 weeks*** of receipt of order.

Our Production Team pride themselves on not only delivering industry best quality but on providing a service to customers unrivalled in the cutting tool business.
